NOTE: Compiled from official statistics of the U.S. Department of Commerce, Bureau of Economic Analysis. Data reflect revisions thru July 31, 2002. National Income and Products Accounts basis for goods and services reflects adjustments for statistical differences & coverage to the Balance of Payments basis. The major adjustments concern the treatment of U.S. territories, Puerto Rico and the Nort Mariana Islands and nonmonetary gold transactions. Goods valuation are F.a.s. for exports and Customs value for imports. Totals will not always equal the sum of the components because of rounding and use of the chained price methodology.

Last updated July 31, 2002. Next update Spring 2003.
